2 | road transport to and from Central and Eastern Europe, the Balkans, the CIS and the Middle East  
worldwide intermodal solutions by road, sea, air and rail

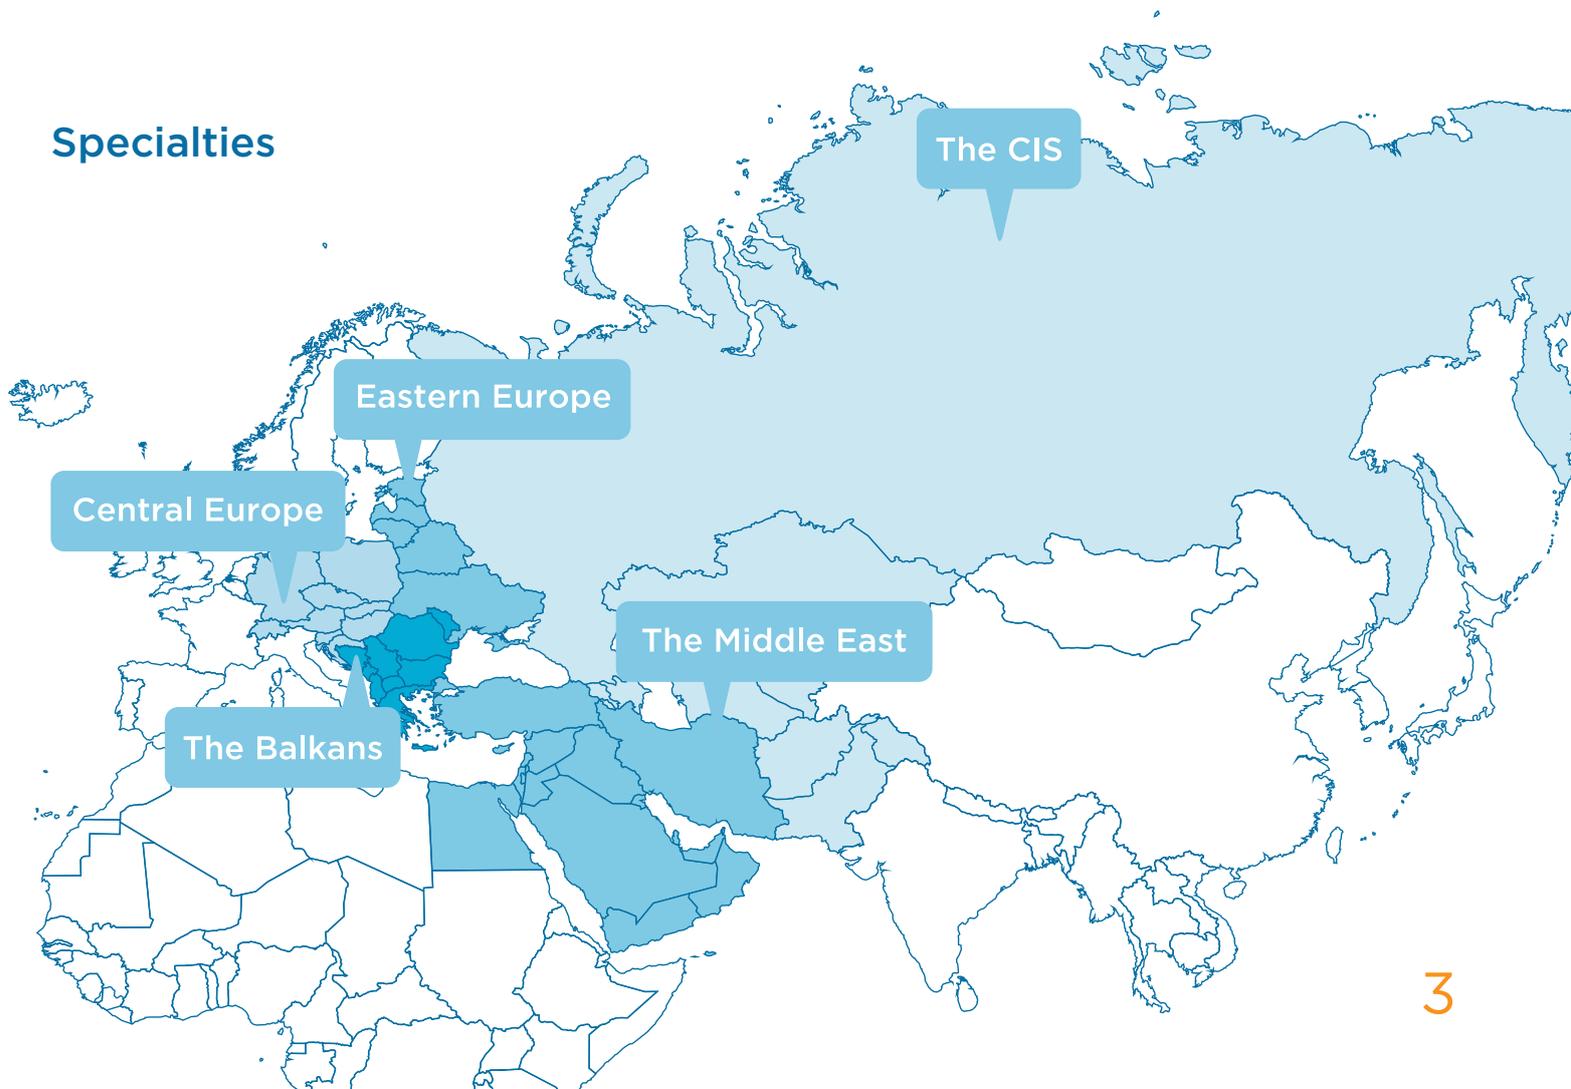

# Mission

**Soncotra** is a family-run business specializing in road transport of goods to and from Central and Eastern Europe, the Balkans, the CIS and the Middle East. Annually, Soncotra carries over 15,000 full truck and groupage loads to and from these destinations.

Our fleet is equipped with a **track & trace system** that monitors routes, temperature and door opening 24/7. Your goods are continuously monitored so they can be transported quickly and safely according to your requirements.

## Specialties

## Daily FTL and LTL transports to

- Czech Republic
- Slovakia
- Hungary
- Poland
- Lithuania
- Latvia
- Romania
- Bulgaria
- Bosnia-Herzegovina
- Serbia
- Ukraine
- Belarus
- Russia
- Slovenia
- Croatia
- Iraq
- Iran
- ...

## Transport by road

Half our fleet is **box trailers** and the other half is **temperature-controlled trailers** (with double loading floor and dual temperature). Both trailers and trucks are equipped with track & trace systems and driven by experienced, fully trained, reliable drivers.

Soncotra delivers your goods quickly, safely and professionally to your destination. To optimize the transport of your goods, we have your needs constantly in mind. And making maximum use of our trailers' capacity allows us to keep transport costs down.

Soncotra offers three options for international road transport:

**Full Truck Loading (FTL), Groupage (LTL) and Express.**

Fleet			
			
<b>Ambient Trailers</b> Box & Curtain sided	<b>Reefer Trailers</b> Refrigerated & Frozen	<b>Mega trailers</b> 100m <sup>2</sup>   120m <sup>2</sup>	<b>Express Delivery</b> Vans, Small trucks
	 -25°C   2°C   8°C 15°C   25°C		 Two drivers faster & safer

## Full Truck Loading (FTL)

For FTL transport of your goods we use the various types of trailers in our own fleet or our selected and approved subcontractors:

- Refrigerated trailers
- Bi-temp trailers
- Double deck trailers
- Curtain-sided trailers
- Box trailers
- Mega trailers, 100 m<sup>2</sup>
- Jumbo trailers, 120 m<sup>2</sup>

## (Thermo) Groupage (LTL)

Your goods shipment does not come to a full truck load? Then Soncotra will organize a **part load** or **part cargo** for you.

Daily groupage transports depart for:

- **Central Europe:** Czech Republic, Slovakia, Hungary, Slovenia, Croatia
- **Eastern Europe:** Poland, Lithuania, Latvia, Estonia
- **The Balkans:** Romania, Bulgaria, Turkey, Serbia, Bosnia-Herzegovina
- **CIS Countries:** Belarus, Ukraine, Russia, Kazakhstan, Uzbekistan
- **The Middle East:** Turkey, Iraq, Iran, Lebanon

Groupage is possible for **standard goods** as well as **temperature-controlled goods** (frozen, +2°C, +8°C, +15°C and +25°C) in line with European directives on cool chain transports.

There are no fixed departure or delivery days – these are set in consultation with our customers. If you require pre-loading or temporary storage of your goods at our depot, we'll be happy to arrange this.

## Express

Would you like your goods delivered today rather than tomorrow? In that case, we can offer a temperature-controlled or curtain-sided trailer with **two drivers**. Not only does this speed up the delivery, it also decreases the risk of theft.

You can also count on us for fast international freight deliveries by van or small truck with either one or two drivers.

### Operates as Soncotra's agent for Ocean, Air & Multimodal transport

As agent for Soncotra, Libertas LLP offers full-scale global forwarding options. We look for creative, alternative and cheaper options to optimize your worldwide shipments. We transport goods by ship, plane or train, or any combination of these.

## Sea, Air, Multimodal transport & Rail

### Ocean freight

Libertas has unique partnerships in place with all global and local carriers.

We guarantee you **trouble-free** import and export and high-quality service for all your worldwide FCL and LCL shipments. We will make sure that your goods always arrive at their destination in time and in perfect condition.

- Weekly groupage services for containers (LCL)
- Full container load (FCL)
- Customs service (import and export declarations)
- Temperature controlled services (reefer)
- Dangerous goods (ADR)

### Air freight

We offer **24/7** airport-to-door, door-to-door and door-to-airport services. For airport-to-airport we rely on the fastest, highest-quality airfreight solutions.

Teamwork with our reliable overseas local agents means your goods will always reach their end destination, trouble-free and on time.

- Airport-to-airport services
- Door to door services
- Direct and indirect flights
- Customs service (import and export declarations)
- Temperature controlled services
- Dangerous goods (ADR)

### Multimodal transport

There is ever-increasing demand for **multimodal transport** in international trade. This combines several modes of transport on one route. Most of the transport is done by sea or river. Road transport before or after is always executed by our reliable local subcontractors.

### Rail

Rail transport is a cheap, fast and sustainable solution. Libertas can offer you door-to-door transport with collection and distribution in Europe. In addition, we also offer you a door-to-door **rail service** to and from China. Faster than sea freight and cheaper than air freight, rail is a great alternative option for your goods transport needs.

- Shorter transit time
- Faster than LCL and FCL shipping by sea
- Reduces your inventory costs
- Environmentally friendly

- Russia
- Ukraine
- Kazakhstan
- Uzbekistan
- Turkmenistan
- Georgia
- Azerbaijan
- Armenia
- Tajikistan
- Mongolia
- Russia
- Finland
- Azerbaijan
- The Baltic States
- UK

# Quality, security & safety

## Track & Trace and temperature monitoring

Our Track & Trace (GPS and GPRS) system and on-board computers keep you **continuously informed** about vehicle location and the status of your goods. Trailer temperature is constantly monitored at our base. If the temperature moves outside the given range for a split second, our high-performance monitoring system enables us to respond instantly.

Do you want absolute certainty that your goods will remain at a **constant temperature** during the entire transport? Then the **Thermograph** provides you with tangible proof of our excellent service and quality. Even if your vehicle has to board a ferry, there will be no power supply interruption, as all our trailers are equipped with a special power supply connection for ferries.

## Quality certificates

Soncotra has five quality certificates for safe, secure, high-quality and environmentally friendly international transport of goods:

### ■ ISO 9001

The international standard for quality management

### ■ GDP

Good distribution practice of medicinal products for human use (2013/C 343/01).  
International Road Transport of pharmaceutical products under controlled temperature

### ■ TAPA

TAPA TSR1 (Transported Asset Protection Association)

The primary focus of TAPA is theft prevention through the application of global security standards.

### ■ SQAS (Safety and Quality Assessment System)

Gold standard for the quality, safety, security and environmental friendliness of logistics companies and the chemical industry

### ■ AEO (Authorised Economic Operator)

Quality label for financial solvency and competence customs matters

This certificate means smoother transport with less delay.

## Security and safety

All our box trailers and refrigerated trailers are equipped with a **double door lock** and **'bulldog lock'**. Our Tapa-assessed trailers are equipped with an extra **remote-controlled safety system**. The back doors of the trailer can only be opened remotely from our base.

All our drivers are fully trained and have years of experience in the transport sector.

They always follow the agreed route and are perfectly up to date with all quality standards and safety procedures. In case of emergency, the driver can use the panic **alarm button** which automatically alerts the emergency services. In addition, our vehicles are under 24/7 surveillance by G4S Telematix, an international security monitoring system.

**GDP**  
certified

**GDP**  
certified

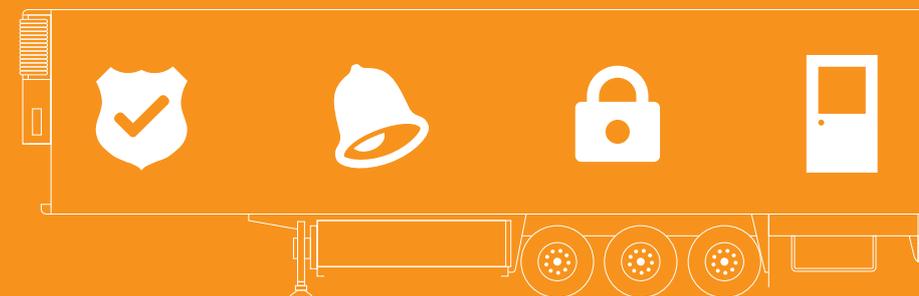

**Track & trace**  
GPS & GPRS

## Pharma-Cosmetics

For years, Soncotra has specialized in temperature-controlled transport for diverse sectors. Our vehicles comply with TAPA & the European GDP directives for international transport of pharmaceutical and cosmetic products:

- GPS on both trucks and trailers
- Printing device with logged temperature information
- GPRS connection for alerts in case of temperature deviations
- Secure Door lock with remote control
- Regular maintenance and inspection of the cooling unit
- Annual calibration of the temperature sensors

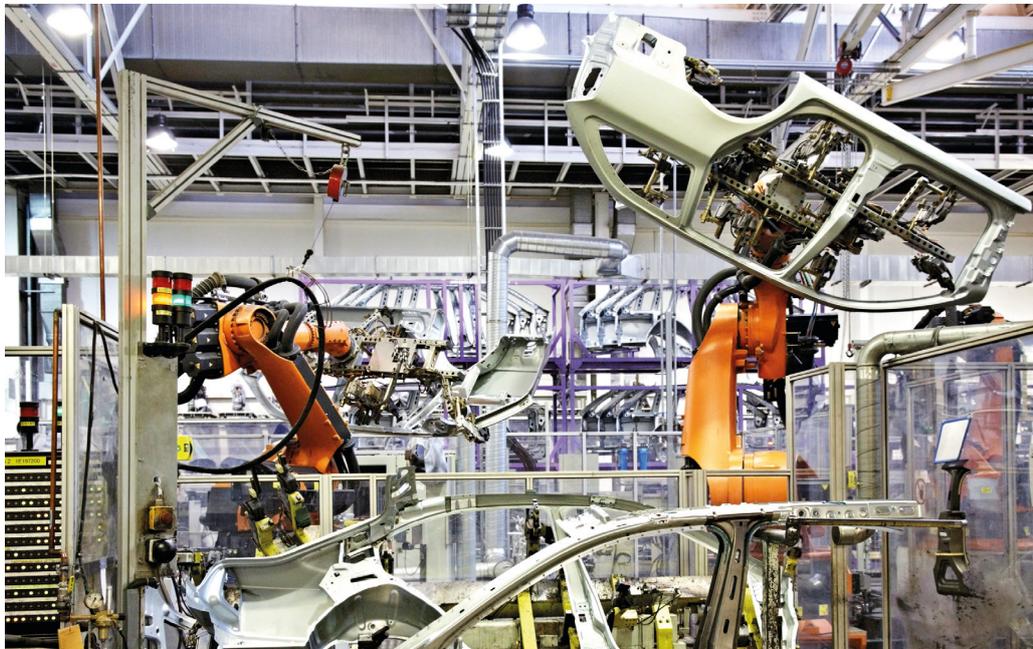

### Other features?

- Double loading floor
- Bi-temperature trailers
- Several cooling options
- Frozen, 2°C, 8°C, 15°C and 25°C

### Main destinations?

- Czech Republic and Poland
- Austria, Slovakia and Hungary
- Romania and Bulgaria
- Russia, Belarus, Ukraine and Kazakhstan
- Turkey, Iran, Iraq, Lebanon

## Customer satisfaction

Our annual customer satisfaction survey tells us how our customers rate our services.

### Healthcare

*"Soncotra has everything it needs to be the number one company in GDP Transport!"*

### Pharma

*"Very satisfied. Even last-minute bookings are hassle-free. We really appreciate the friendly and helpful Soncotra staff!"*

### Automotive

*"Soncotra is always there for us. Thanks to them, we always get the best and fastest solution. Their quotations are always fast and their system easy to work with."*
